TITLE INDEX

- A non-parametric view of money/income causality, 79
A bias-adjusted Black and Scholes option pricing model, 51
A VARMA approach to estimating term premia: the case of the Spanish interbank money market, 409
Adverse selection and the market for consumer credit, 161
- Banks' information about borrowers: the stock market response to syndicated loan announcements in the UK, 449
- Cointegration between US short-term and long-term interest rates (both nominal and real), 323
Common volatility in the foreign exchange market, 1
Conditional volatility and firm size: an empirical analysis of UK equity portfolios, 433
- Daily seasonalities and stock market reforms in Spain, 419
Day of the week effect on the Greek stock market, 43
Deregulation and security prices in Pakistan: the case of Islamization, 319
Determinants of variation in mutual fund returns, 383
Do Asian stock market prices follow random walks? Evidence from the variance ratio test, 251
Duration dependence in the US stock market cycle: a parametric approach, 309
- Empirical tests of chaotic dynamics in market volatility, 291
Exchange rates, country-specific shocks, and gold, 121
- Global reaction of security prices to major US-induced surprises: an empirical investigation, 203
- Industrial relatedness, structural factors and bidder returns, 179
Information content of bank insider trading, 219
Institutional shareholdings and the investment trust discount as an agency cost, 169
Investigating the robustness of tests of the market efficiency hypothesis: contributions from cointegration techniques on the Canadian floating dollar, 139
Irish loan-deposit interest rate margins: a duration-based approach, 27
Is there an intra-month effect on stock returns in developing stock markets?, 285
- Lead-lag associations between option trading and cash market volatility, 373
Long run behaviour of Pacific-Basin stock prices, 11
- Management buyout announcements and securities returns in the UK: further evidence for the period 1981-91, 243
Measuring efficiency and productivity growth in Japanese banking: a nonparametric frontier approach, 95
- Modelling sterling exchange rates and interest rate differentials, 345
Modelling China's demand for international reserves, 357
Monitoring costs and ownership concentration: Australian evidence, 441
- On the importance of the term premium in the T-Bill market, 235
Outlier time-series models and analysts' forecasting of GNP and corporate earnings per share, 113
- Predictive ability of earnings and dividend yields: an empirical evaluation of New Zealand stocks, 109
Purchasing power parity: new methods and extensions, 19
- Rational and intrinsic bubbles: a reinterpretation of empirical results, 199
Return to shareholders of US targeted companies acquired by foreign corporations, 265
- Testing the relevance of accounting numbers in security valuation: a structural model with Scandinavian data, 229
Tests of the risk premium on foreign currency futures implied by the intertemporal asset pricing theory, 85
The accuracy and timeliness of survey forecasts of six-month and twelve-month ahead exchange rates, 367
The measurement of productive efficiency in UK building societies, 397
The impact of sunshine laws on police and firefighter bargaining outcomes, 425
The trading performance of filter rules on the Taiwan Stock Exchange, 391
The effect of financial liberalization on the efficiency of Turkish commercial banks, 257
The long-run gains from international equity diversification: Australian evidence from cointegration tests, 33
The expectations theory of the term structure: a cointegration/causality analysis of US interest rates, 273
The impact of firm sized differences on the day-of-the-week effect: a comparison of major stock exchanges, 151
The private cost of socially responsible investing, 69
Time-varying distribution and the optimal hedge ratios for stock index futures, 131
Trading activity indicators and market timing, 337
Treasury bill auction announcements and the transitory positive Tuesday return in the Treasury bond market, 301
- UK stock and government bond markets: predictability and the term structure, 61
- Valuation effects of the FDIC Improvement Act, 191
- Wealth effects of US bank takeovers, 329
